

The Autism Division of DMR:
Autism Waiver Update:
December 2007

- The initial request period closed on November 16, 2007.
 - Request forms may still be submitted to the Autism Division; however they will be treated on a first come first serve basis and will not be considered for this initial enrollment period.
- We have randomly selected an initial group of 80 children and are beginning to determine their eligibility for the Autism Waiver Program.
- This process will be ongoing until we determine 80 eligible children.
- We will respond to all request forms, however we anticipate that the eligibility process will take some time.
- We appreciate your patience during this time period.
